COVER - Century old photograph with the quality of a painting, taken by the eminent artist-explorer William Bradford. A reminder to those who like the unusual - the program "Wonders of a Frozen World" will be presented Wednesday night, December 5th, at 8:00 p.m. at the New Bedford Whaling Museum Theater. Scenes projected by a powerful lantern will recreate the adventure of a century past and Explorer Bradford's narration will be recreated to accompany the slides. There will be a charge for non-members.

## Rochester 300

The final event in the year long celebration of the 300th year since the founding of Rochester will begin early in the evening, Sunday, December 16th, on the Green at the First Congregational Church.

The Church will decorate a Christmas tree, which will be lighted to begin an evening of Caroling. A thirty-plus voice chorus, under the able direction of Nancylee Gaucher, will sing a few special Christmas songs, and then lead the townspeople in the traditional carols. The chorus will then travel via John Girouard's logging sled east through the center of town, north on Walnut Plain Road, west on Clapp

The building will be open, and the Historical and the Woman's Club will host a social featuring more caroling and cheer. Everyone is invited!!

Cooperation of many groups, such as are involved in this event, has made it possible for Rochester to have a unique Tri-Centennial, without strain on municipal or personal budgets. Nearly all events have been free, as is this one. True Yankee ingenuity, nearly a lost art in this overcrowded world, survives in Rochester. Come share in this marvelous spirit. Questions about this event may be referred to the event chairman, Anita Bernier. We regret that we have already filled our quota of caroleers and no further members can be accepted to the chorus, but, of course, everyone is invited to sing along.

## Blessed are the Thugs

FOR THEY SHALL INHERIT THE UNITED STATES

Editorial - D. C. J.

When the mob attacked and took the United States embassy in Iran they attacked and captured American soil and with it American citizens exactly as if they had taken New

York City and its citizens. To stand patiently and do nothing in the face of this act is not the action of first class power. It is inconceivable that any Russian embassy could be taken in this manner, but, if it ever could happen, no such weakness can be expected. Reaction will be both swift and sure. It should be. Without retaliation in kind no citizen of the victim country can ever be safe no matter what military power stands ready.

When the thugs of the world expose a major power's leader as weak and indecisive the stage is set for an even greater test of that leadership's will to retreat. Black-mailers are never satisfied with one payoff. The victim of blackmail is never free of fear or secure from further demand.

The United Nations now has the opportunity to decide an issue of international law in a violation so clear and applicable to all nations that no reasonable doubt can exist.

## Ned's Point Closing?

Editorial, D.C.J.

The Selectmen of Mattapoissett are seriously considering the shutting of Ned's Point to vehicles after dark. This is in response to continuing vandalism and nuisance by a gang using the park as a drinking hangout.

The people of the town might want to express themselves on this action before anything is done. No one point on the harbor is more attractive or used by more people than this one outlook. In the summer, particularly on the very hot evenings, cars come to this spot in a steady stream for the

relief of its cooling breeze. There are many good reasons for living in Mattapoissett but high on the list must come enjoyment of this plot of land known as Ned's Point.

Anyone who has ever served in the army or navy knows there is an easy way to punish offenders. If a few step out of line then cancel privileges for the entire company. This saves the commander from the nuisance of finding the offenders.

Well, it's an effective method. It does suggest, however, why many people prefer to live in Mattapoissett rather than stay in the army or navy. I'd like to suggest some alternatives. I suggest first of all that Ned's Point be left in a natural state with no "improvements". The very nice, individual cookout fireplaces lasted almost one season before someone began to destroy them. The picnic tables have lasted somewhat better but not without damage. The sown grass has always been the target of wheeled vandals. The floodlight has been broken repeatedly. Before these "improvements" Ned's Point was used with as much or perhaps more pleasure. Let the grass plant itself. Let the floodlights go dark. Let people at cookouts furnish their own grills. Let the people bring their own chairs or sit on the rocks. Let's have no more walls or gates installed, boulders or trees planted.

Let us have one place to enjoy the shore and the sea in the natural state.

Finally, we have capable police; let them discover and arrest the vandals that destroy, break their bottles and finally speed drunkenly up Ned's Point Road.

To bar the whole town from the pleasure of this place is the easy way to inhibit the vandals or so it seems. The public would be turned back by the gate. To the drunk, however, it would be just another challenge. He'd drive right through it. It would be just

from the place it was nailed and so came limping home dragging the trap. The dog escaped with a very sore cut leg.

It must be presumed that more of these instruments for torture are set in the woods of the Neck for the trapping of whoever sets foot there. Mr. LaFrance checked with the Mattapoisett Police who have the incident under investigation. Massachusetts law prohibits sawtooth traps. Traps without teeth are legal provided they are engraved in the metal with the name and registration number of the owner. This trap bears no such marking. Leghold traps can't be used on dry land except in or under buildings on land owned, leased or rented by the owner of the trap.

Junior Troop 99 with Barbara Gaspar and helpful parents traveled to Boston to The Whole World Celebration at the Commonwealth Museum. While there, the girls sampled foods from all over the world such as Marinated Beef in peanut sauce with rice chips, Shrimp Chips and Baklava -- sounds good doesn't it? They also saw an American Indian tribe (the Narragansetts) do some authentic folk dances. There was also a magic act and puppet shows. A good time was had by all at the craft shops learning how to make boom-a-rangs, Polish paper-cutting, and Indian Weaving.

The Cadette Troop with Ruth Walega helped the patients at the Mattapoissett Nursing Home celebrate Thanksgiving. The girls baked some sweet goodies and brought them to the nursing home, and while the patients enjoyed them the girls entertained with some songs. This is part of the troop's "adopt a Grandma" plan, with the holidays sometimes being a lonely time, these girls hope to brighten some of the days for our Senior patients.

IN THE ROCHESTER GENERAL STORE  
Route 105, Marion Rd., Rochester  
Serving 7 Days from 7 AM to 7 PM (to 8 on Fridays)

The Boy Friend, Sandy Wilson's spoof of the 1920's, which made Julie Andrews a star, will be presented by the Southeastern Massachusetts University Theatre Company on December 6, 7, 8, and 9 at 8:00 p.m. in the SMU auditorium.

The charm and comedy of *The Boy Friend* comes from a menagerie of crazy characters. Polly and Tony, cursed with being rich and therefore in fear of being pursued only for fortunes, meet in the rather bawdy but prim Madame Dubonnet's finishing school for girls. There too we meet Maizie, Polly's madcap friend who keeps all her beaux on tenterhooks, but is captivated by Bobby Van Husen when he woos her with the energetic "Won't You Charleston With Me?".

Angus Bailey, director of the musical, calls it "lively and innocent fun -- good entertainment for the holiday season".

The Boy Friend is the third play in this

season's chronological overview of the American theatre from the 1920's until now. Following in the series will be Picnic (50's) on January 17, 18, 19 and 20; Incident at Vichy (60's) on February 7, 8, 9 and 10; and The River Niger (70's) on March 6, 7, 8 and 9. Topping off the season will be the Rodgers and Hammerstein musical The King and I on May 1, 2, 3 and 4.

The cast of *The Boy Friend* includes Denny Maloney, Karen Messier, Paula Stebbins, Robin Wills, Linda Nelson, Kathi Saze, Beth Rouleau, Norm Byron, P. Christopher Gaucher, Paul Sardinha, Bob Pedder, Laurel Nelson, Stuart Johnson, Marc Stringer, Frank Roe, Donald Reid, Kay Harris, and John Brennan.

Costume master and properties manager is Chris Gaucher, poster design is by Jo-Ann Di Verdi, and graphics are by Patrick Demers and Beth Rouleau. Makeup designer is Roseanna Radosevich, lighting designer is David Perry, and stage manager is Peter Carlin.

The riverfront acres were given in 1978 to a private conservation group, the Dartmouth Natural Resources Trust, by Karen Cribbs. The deed specifies that the land be used for environmental studies or research and that it be known as the Katharine Nordell Lloyd Center for Environmental Studies.

This month, the Dartmouth Natural Resources Trust has published a detailed Request for Proposals which seeks "imaginative proposals from non-profit organizations for the use of all or part of the Lloyd Center's waterfront, marsh and upland property and existing modern four-story building".

The property, which the Trust publication describes as "uniquely suited for environmental studies", includes approximately

The rest of the property, with the exception of a fresh water pond and small swamp, is high and wooded with typical hardwoods predominating. There are also several holly trees, reputed to be some of the oldest and largest in Massachusetts.

Such a gift of riverfront land is not an isolated act of generosity; it may even be a family tradition. Karen Cribbs' mother, the Katharine Nordell Lloyd for whom the Center is named, was active in land conservation. She originally owned the 220 acre Demarest Lloyd State Park -- just downstream from the Lloyd Center -- which she gave the public in memory of her son, Demarest Lloyd, who was killed in World War II. And a sister of Karen Cribbs has recently put much of her own shore acreage under Audubon protection.

Slocum River property like the Lloyd Center is zealously protected in Dartmouth and

with good reason; the area, while convenient to both Providence and Boston, is itself secluded and unspoiled. Several riverfront properties totaling nearly 700 acres have had conservation restrictions placed upon them or have been given outright to conservation groups, such as the Dartmouth Natural Resources Trust. What distinguishes the Lloyd Center is Karen Cribbs' stipulation that it be actively used for the good of the community.

The Lloyd Center Request for Proposals is available, for five dollars, from Dartmouth Natural Resources Trust, Box P-17, South Dartmouth, Massachusetts. All proposals must be submitted before March 1, 1980.

The new law states the operator of a motor vehicle that strikes and injures or kills either a dog or a cat must report the accident to the owner or custodian of the dog or cat or to the police in the city or town where the accident happened.

McLaughlin emphasized a violation will result in a fine not to exceed \$50.

"Although many cities and towns have dog restraining laws, family pets still dart out in front of the vehicles, especially at night," McLaughlin added.

### LOCAL COLLEGE STUDENTS REGISTER AT WENTWORTH INSTITUTE OF TECHNOLOGY

Several local residents are enrolled at Wentworth Institute of Technology in Boston for the 1979-80 academic year, Dr. Edward T. Kirkpatrick, Wentworth president, announced.

More than 2,500 full-time day students registered for the industrial and engineering technology programs at Wentworth which is observing its 75th anniversary this year. Wentworth enables a student to start on the

path of higher education at a point keyed to his scholastic preparation and achievements, and gears him to attain the limits of his potential.

An Associate in Engineering degree is granted to students completing the two-year engineering technology program and an Associate in Applied Science degree to students in the two-year industrial technology courses. Wentworth also conducts a certificate program in industrial technology. Graduates of the engineering technology programs may advance to the Bachelor of Science in Engineering Technology degree program, where most of the courses are conducted on a co-operative work-study basis.

The local residents are Donald W. Bailey, Computer Science Engineering Technology, Grand View Avenue, Mattapoisett; and Walter J. Callahan, 10 Inland Road, Marion, Architectural Drafting Technology.
